Khmer Traditional Blessing Dance during The Big Launch 2018

The first day of university is your first chance to find your way around the campus, and learn about all the exciting things we have in store for you. It's a lot to learn in one day, so don't be surprised if you need a reminder or two. The Big Launch is taking place in University of Puthisastra campus on the 3rd of December 2018.

This event will show that UP as a welcoming, supportive environment, allow you to get to know UP policies and rules, get familiar with available resources such as your teachers, offices, library and people, as well as with the academic expectations of the university.

It might help to write a few notes to yourself, so you'll remember the important stuff!

But don't worry - if you don't know something, don't be afraid to ask – we are here to help!! In addition, this is your chance to learn about the community involvement we at UP are very proud of, our Clubs where you can exercise your body as well as mind as well as build your confidence as you adapt to university life.

Last year, smiles and laughter sounded many times as students found new friends as they took part in different activities with their new classmates. All of us at UP welcome our upcoming foundation year students to join the UP Family. We hope to make this day a start of your great new university adventure. Join us now and don't miss this major event!

WHAT'S UP ON CAMPUS

- 03 DEC - THE BIG LAUNCH
- 03 DEC - START OF CLASSES FOR FOUNDATION YEAR STUDENTS
- 04 DEC - UNIVERSITY ORIENTATION COURSE
- 10 DEC - INTERNATIONAL HUMAN RIGHTS DAY

UP MEDICAL STUDENTS IN SUNRISE JAPAN HOSPITAL

Two medical students from the University of Puthisastra completed six weeks of successful internship at SUNRISE JAPAN HOSPITAL. We are proud that UP students have incredible opportunities to learn from the best well as getting hands-on experience at internationally renowned hospitals as in many countries including Cambodia, Thailand, Korea, Japan, Malaysia, Singapore and more.

Our students will see healthcare systems totally different from other students, and get experience with conditions and practices you've never seen before. A truly international dimension.

University of Puthisastra has designed internship programs such as these to help our students (and their resumé) stand out and provide a huge advantage compared to many other graduates every year. UP internships programs not only expand students' clinical knowledge and skill sets but also develop confidence, resilience, communication skills and resourcefulness. Once students graduate, they can draw on these skills and professional networks to get that dream job.

GRADUATION EXAM SEASON AT UP

44 students in the Associate Degree in Nursing (ADN) sat the UP Internal Exit Exam from 28th to 30th November 2018.

All staff in the Nursing Department are actively involved in supporting the students through their exams. To maximize success, students have had preparation for these exams for several months which included multiple choice exam questions (Theory) as well as practical exams (OSCE).

Each of the students have had the opportunity to improve their practical skills in both group and individual teaching methods. To practice for the MCQ exam, students were put in study groups where they not only learnt from their teacher but also from each other in a structured but fun environment.

Nursing Students sitting the Exit Exam
